

Whispers in the Rain

Outside the kitchen window
Stood a weeping willow tree
In need of some tendin'
Like you and me
A silent house
On the edge of town
Where time stood still
Waiting on the walls to come down

Will you take me with you when it's time to fly?
For the river is long and the mountain's high
We'll roll away the stones from days gone by
Like whispers in the rain, you and I

Bird in the sky
Going with the breeze
Feels the seasons change
Before the falling of the leaves
When the storms were coming in
Without saying goodbye
We could have caught a train to anywhere
And went running with the tide

Will you take me with you when it's time to fly?
For the river is long and the mountain's high
We'll roll away the stones from day gone by
Like whispers in the rain, you and I
We'll roll away the stones

Like whispers in the rain, you and I

We'll roll away the stones

Like whispers in the rain, you and I

We'll roll away the stones

Like whispers in the rain, you and I

Outside the kitchen window

Stands the weeping willow tree

In need of some tendin'

Like you and me
